The Sullivan-Palatek Compressor

The advantages of owning a Sullivan-Palatek Rotary Screw Air Compressor:

Sullivan-Palatek provides low maintenance, high performance and one of the most reliable air ends in the industry.

Our design features advanced profile working rotary screws for high efficiency.

Operating costs are significantly reduced because compressors can be sized to desired operating conditions.

Featuring Reliable Caterpillar & Cummins Engines.

Sullivan-Palatek manufactured air end ensures complete control over quality and testing of all components. Tapered roller bearings add to the quality of every Sullivan machine. 24 volt, maintenance free battery system (2300 to 2800 CCA). New NC (normally closed) air inlet valve for ease of starting in cold environments.

Sullivan-Palatek provides a **THREE YEAR, Unlimited Hour, Air End Warranty, on all machines.**

Sullivan-Palatek Portable Features:

Automatic zero to 100% capacity control.

Individually Mounted Coolers. Hydraulic

Surge Brakes Standard. Automatic

Shutdown & Protection System.

Automatic Blowdown Valve.

Unloaded Starting / New

Closed Inlet Start. Noise Level

Limited to Maximum of

76 dBA at 7 Meters.

Reinforced Jack Stand.

Committed to Support™

Standard Gauges:

Standard gauges include panel light, fuel gauge, tachometer/hourmeter, voltmeter, discharge air temperature gauge, discharge air pressure gauge, engine water temperature gauge & shutdown, air/oil separator maintenance indicator and air filter restriction indicator. This series of machines also include a low radiator water level warning light and a low fuel shutdown switch.

Telltale gauges will quickly pinpoint the reason for shutdown.

Optionals:

Built-in aftercooler, water separator and filtration available to provide instrument quality air.
